L. C. Card, 64-60049

Selective, annotated list of over 650 periodicals in West European languages which are published in, or deal with, the Soviet Union and/or Eastern Europe. Subscription information and, when available, L. C. call numbers are given. Includes an alphabetic index of titles and issuing organizations and a subject guide.

Scientific and Technical Serial Publications of the Soviet Union, 1945-1960. Prepared by Nikolay T. Zikeev. 1963. iv, 347 p. Price \$1.75. For sale by the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402.

L. C. Card, 63-61782

Contains 5091 entries, with L. C. call numbers where available. Serials only partly devoted to science or technology are included, as well as Soviet journals published in English translations. Features a keyword index to institutes and a guide to subject content.

Soviet Russian Scientific and Technical Terms. A Selective List. Prepared by the Lexicographic and Terminology Section, Aerospace Information Division, Library of Congress. 1963. vi, 668 p. Price \$3.50. For sale by the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402.

L. C. Card, 60-60977

Contains over 26,000 entries which, generally speaking, cannot be found in standard dictionaries, or which have a special meaning when used in a particular field of science and technology. A number of frequently used abbreviations have also been included.

Soviet Science and Technology. A Bibliography on the State of the Art, 1955-1961. Prepared in the Science and Technology Division, Library of Congress. 1962. 209 p. Price \$1.00. For sale by the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402.

L. C. Card, 62-60058

Contains over 2000 annotated entries for periodical and monographic materials from Soviet bloc and Western sources. These include reports on study trips, surveys, and bibliographies. Library of Congress call numbers and other identifying numbers have been included when known.

Bulgaria. A Bibliographic Guide. By Marin V. Pundeff. 1965. ix, 98 p. Price \$0.55. For sale by the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402.

L. C. Card, 65-60006

Provides guidance to materials in English and in other languages. Part I is a bibliographic survey which discusses sources, while Part II is an alphabetical list of the publications mentioned in Part I. The 1243 entries in Part II include Library of Congress call numbers where applicable, as well as National Union Catalog symbols indicating holdings by other libraries.

Hungarian Abbreviations. A Selective List. Compiled by Elemer Bako. 1961. iv, 146 p. Price \$0.45. For sale by the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402.

L. C. Card, 61-60004

Covers mainly names of government agencies, public institutions, societies, industrial and trade enterprises, and other organizations. General abbreviations frequently used are also included.

Yugoslav Abbreviations. A Selective List. Compiled by Ilija P. Plamenatz. Second enlarged edition. 1962. iv, 198 p. Price \$1.00. For sale by the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402.

L. C. Card, 62-60076

Lists abbreviations, with their expansions and English translations, for Serbo-Croatian, Slovenian, and Macedonian terms used in Yugoslavia since World War II, particularly names of government agencies, societies, and industrial and trade establishments.

Eighteenth Century Russian Publications in the Library of Congress. A Catalog. Prepared by Tatiana Fesenko. 1961. xvi, 157 p. Price \$1.00. For sale by the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402.

INTRODUCTORY NOTE

The MONTHLY INDEX OF RUSSIAN ACCESSIONS* is a record of the publications in the Russian language issued in and outside the Soviet Union that are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, publications printed in other languages spoken in the Soviet Union are also included.

The MONTHLY INDEX consists of four parts. Part A lists monographic literature, but no accessions published earlier than 1954 are included. To facilitate the use of this INDEX by readers who are not thoroughly familiar with the Russian language, the title in the original language in Part A is preceded by its English translation in brackets.

Part B lists Russian periodicals received, but excludes accessions printed earlier than 1954. Tables of contents in English translation are provided for most periodicals listed.

Part C provides subject analysis of the monographic titles listed in Part A and of the articles appearing in the periodicals enumerated in the *List of Periodicals Indexed and Abbreviations Used* at the beginning of Part C. The number and letter in parentheses following each abbreviation indicate the class and subclass in which the periodical appears in Part B. For the convenience of readers desiring to examine only monographs or periodical articles, the monographs are printed in slightly heavier type than the periodical articles. The titles of monographs are given both in the original language and in English translation, whereas titles of periodical articles are given in English translation only.

Sample title: Some data on lung-to-heart reflexes in amphibians. A. E. Alekseev. *Biul. eksp. biol. i med.* 54 no. 12: 18-22 D '62.

Explanation: An article with title given above in English translation, written by A. E. Alekseev, will be found in the December 1962 issue of *Biulleten' eksperimental'noi biologii i meditsiny*, vol. 54, no. 12, pages 18-22.

Beginning Volume 21 No. 1 (April 1968) the subject headings previously used in Part C are replaced by classes based on the Universal Decimal Classification. A guide to the classes used and an alphabetical index to the names of these classes precedes Part C.

Part D lists monographic works recently cataloged by the Library of Congress in English or in the major Western European languages (French, German, Italian, Spanish) on Russia or the Soviet Union, or by Russian or Soviet authors. Each listed monograph is followed by the Library of Congress call number and by the printed L. C. card number.

A cumulative list of periodicals included in the current volume appears in number 12 of that volume. This list is arranged by subject; the symbols of American libraries other than the Library of Congress, known to have files of such periodicals, follow each title.

Except in Parts C and D, the material is divided into 17 subject classes and is arranged alphabetically within each class. In addition, for the convenience of the reader, the serials listed in Part B are divided within each subject class into several subclasses. All entries are transliterated according to the usual Library of Congress system except that ligatures are omitted. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols representing other libraries indicate when items are available in those libraries. Curves () around a symbol indicate that at the time of receipt the material was available in another library but not in the Library of Congress.

Cumulative author, subject, and periodical location indexes to the first four volumes of the MONTHLY INDEX are available as separate publications. Beginning with Volume 5, an author index to the monographs, and a periodical location index for the entire volume are furnished as appendices to the first two issues of the following volume.

Orders for microfilm or photostat copies of the listed items that are in the collections of the Library of Congress may be placed with the Photoduplication Service, Library of Congress, Washington, D. C. 20540

The MONTHLY INDEX OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402

Single copy prices vary; subscription price, \$14.00 a year domestic, \$5.00 a year additional for foreign mailing.
